

BCC Global Business Network Directory

The British Chambers of Commerce has been helping UK businesses grow and trade successfully across the world for over 150 years.

The British Chambers of Commerce Global Business Network is a comprehensive international network of British chambers of commerce and business groups located across the world, that will drive two-way commerce and business between each location and the UK. An agile and reliable ecosystem for businesses wishing to widen their international horizons.

Each chamber has a diverse membership of both services and goods companies, willing to share advice and provide trusted connections. This means that a company that is a member of any chamber in the BCC network can benefit from international B2B connections, support services and solutions, practical advice about the local business environment and potential market opportunities; all provided by a known and trusted partner.

Our directory of members serves to connect you with your colleagues across the Global Business Network.
