

Executive Education 2026

Empowering Your People.

Accelerating Your Business.

University of Southampton Business School

16-18 MARCH 2026

Reporting with GRI Standards

3 days. In-person.

Why register?

- *Gain practical, hands-on expertise in applying the GRI Standards*
- *Improve your organisation's ESG transparency and build credibility with stakeholders, investors, and regulators.*
- *Learn how to collect, analyse, and report data across environmental, social, and governance topics in line with global best practices.*
- *Understand materiality and impact reporting so you can create high-quality sustainability reports that support strategic decision-making.*

13-14 APRIL 2026

Systems Thinking and Leadership Development

2 days. In-person.

Why register?

- *Learn to see the bigger picture by understanding how processes, people, and decisions interconnect.*
- *Develop the ability to anticipate both intended and unintended consequences, enabling more informed decisions.*
- *Learn from industry experts and work with real-world case studies, gaining practical insights you can apply immediately within your organisation.*
- *Apply systems thinking techniques to real organisational challenges, improving collaboration and operational effectiveness.*

13 MAY 2026

Sustainable Finance

1 day. In-person.

Why register?

- *Drive profitability through sustainability, using ESG-aligned financial strategies that unlock new capital flows.*
- *Strengthen long-term financial resilience by reducing regulatory, reputational, and climate-related risks through robust sustainable finance practices.*
- *Gain in-demand expertise as ESG and sustainable finance skills become essential for roles such as Sustainable Finance Analyst, ESG Strategy Lead, and Head of Sustainability.*
- *Learn from leading academic and industry experts, using real-world cases to master sustainable investment and the evolving regulatory landscape.*

Bespoke Training
